The new collection by the versatile Piero Lissoni joins the collection with the soul of a true icon. Ears is as light in terms of materials as it is resistant to aging. Its sinuous shapes keep intact a style capable of taking us back in time to the contemporary classics of the 70s.

Its balanced arrangement (as reduced as it is comfortable) makes Ears a perfect option for different collective and private areas: meeting points, cafeterias, auditoriums, waiting rooms, educational spaces, work areas in libraries or lounges.
