Muller Van Severen was founded in 2011 by Belgian artist duo Fien Muller and Hannes Van Severen. The couple has always been on an inspired quest for sculpturally interesting furniture objects, and their work sits somewhere between design and art, drawing on their passion for architecture and materials. They have won countless awards and collaborated with prestigious international museums and galleries.

PHOTO / RINGO GOMEZ

For HAY, Muller Van Severen has designed the Arcs Shades, Arcs Vases, Arcs Candleholders and Two-Colour Tables.

A shared love of colour and materials is often the inspiration behind many of Muller Van Severen's designs. The designer duo is constantly seeking new ways to present the natural beauty of the materials they use, striving to give the materials their own distinct presence, as showcased here in the Arcs Candleholder and Vase.

Expressive and modern colours are chosen to accentuate the shape of the Arcs Candleholder and Vase. The designs are formed by a unified chain of vertical arcs that create an elegant, scalloped silhouette.

Mix and match the colours and models to create unique compositions.

Made in stainless steel with a mirrored finish or steel in different colours.

Arcs Candleholder is crafted in zinc alloy, and comes in two different heights with various colour options that include pastel, bright and mirrored finishes.

# ARCS SHADES

Arcs is crafted in steel and is available in several different colours or with a mirror finish.

Muller Van Severen's home in Evergem / Belgium.

The shade can be used as a table lamp or pendant lamp, both options forming contrasts in depth, colour and shape.

The Arcs Wall lamp provides a soft, ambient up and down light that plays with shapes and shadows.

- ARCS SHADES -

A gallery space with a concrete floor and white walls. Several tables are arranged in the room. There are two rectangular tables with red tops and red legs, one rectangular table with a grey top and brown legs, one circular table with a blue top and red legs, one rectangular table with a green top and light-colored legs, and one long, narrow rectangular table with a blue top and brown legs. The text 'TWO-COLOUR' is overlaid in the center of the image.

# TWO-COLOUR

Fien Muller and Hannes Van Severen in their studio in Evergem / Belgium.

Muller Van Severen's appreciation of materials is the starting point for many of their designs.

The colours for Two-Colour Table are carefully selected to ensure they penetrate the very core of the object.

Two-Colour is available in different shapes, sizes and colour combinations, all offering a distinct personality fulfilling a variety of aesthetic needs and styles.

The Two-Colour is inspired by the contrasts and similarities in the materials used – featuring robust steel tube legs and a tabletop crafted in organic coloured Valchromat.

Valchromat is made from wood fibres that are coloured individually with organic dyes to create core-through colour with a smooth, water-resistant surface.
